

Agile is your local source for
Occupational Medicine services

Agile will help you hire smart, mitigate risk and minimize medical expenses

*At Agile,
our mission
is to drive a
higher quality
standard for
occupational
medicine*

Agile is singularly focused on keeping your workforce healthy and productive. From employee screenings for preplacement and substance abuse to workplace injury treatment, we offer various occupational health programs that help employers maintain a healthy and safe workforce while providing cost-effective health care for your company and employees.

Our providers are keenly aware that health is essential to a company's most important asset – your employees. That is why our focus is on a commitment to help companies contain and manage costs related to work health and safety. Our clients choose us because we are an employer's trusted single source for all occupational health and employment testing services.

We manage care within ACOEM and ODG guidelines, assuring compliance with authorizations and billing. At the same time, we are aggressive in our efforts to schedule timely visits and monitor the expected vs. actual progress of the patient.

What makes Agile different?

The Agile brand represents our commitment to speed of care, delivery and a focus on assuring each individual patient gets all the care they need quickly while eliminating the unnecessary care that creates waste and frustration for our employers and partners.

We partner with our employers

At Agile, we know there isn't a one-size-fits-all solution, so we work with you to develop a customized approach that fits your organization's needs to ensure you're always compliant and meeting your employee health and wellness goals.

Workforce management through our Portal

Agile's Employer Portal is a secure platform that provides 24/7 access to employee test results and reporting for injury and screening visits. Our intuitive interface design makes navigation to the information you require easy, whether you're looking for a work status report, pre-employment clearance, or need to look up visit history for your employees.

Schedule a time to discuss a plan for your company

Contact us today for a no-obligation, free quote on a comprehensive occupational medicine program for your company.
